## **2014 GIS Classes**

OIR GIS Services has scheduled *ArcGIS I*, *ArcGIS II*, and *ArcGIS Desktop III* that will be taught by an Esri Certified Trainer. The classes will take place in the TN Tower in Nashville. Since these classes are offered at a ***SPECIAL PRICE*** for State employees, they fill up quickly!

These classes are perfect for those new to GIS as well as those that have GIS experience. As software changes, keeping up-to-date with skills is always beneficial. Also, if you are interested in getting your GISP Certification from the GIS Certification Institute, these classes are a great source for the required education points and include an Esri course certificate.

There have been some substantial changes to the software from ArcGIS version 9.3 to ArcGIS version 10.0 and 10.1. These classes are written by Esri for ArcGIS. More detailed information about Esri classes can be found at [www.esri.com](http://www.esri.com).

You must register through your training coordinator.

### **ArcGIS I: Introduction to GIS (version 10.1)**

June 3-4, 2014, 2 days, \$500

**OIR-GIS\_I-1002**, **Registration deadline is April 29, 2014**, withdrawal deadline is May 6, 2014

This course teaches what a GIS is and what you can do with it. Working with various components of the ArcGIS system, you will create GIS maps, explore and analyze the data behind the maps, and apply methods to easily share your maps. By the end of the course, you will have a solid understanding of how GIS maps and ArcGIS tools are used to visualize real-world features, discover patterns, obtain information, and communicate that information to others.

### **ArcGIS II: Essential Workflows (version 10.1)**

June 9-11, 2014, 3 days, \$750

**OIR-GIS\_II-2002**, **Registration deadline is May 5, 2014**, withdrawal deadline is May 12, 2014

In this course, you will acquire fundamental skills needed to author, share, and use geographic information and maps across the ArcGIS system. You will learn how to efficiently find, explore, manage, and analyze geographic data and create informative maps that showcase your work. The course covers a variety of techniques to effectively share GIS maps and resources with decision makers, stakeholders, and the public.

### **ArcGIS Desktop III: GIS Workflows and Analysis (version 10.0)**

June 24-25, 2014, 2 days, \$500

**OIR-GIS\_III-3002**, **Registration deadline is May 19, 2014**, withdrawal deadline is May 27, 2014

Advance your ArcGIS Desktop 10.0 skills in this course that teaches how to create an efficient workflow that supports GIS analysis. Working with data stored in a geodatabase, you will organize and prepare data for analysis, create geoprocessing models, and work through a challenging analysis project. By the end of the course, you will be able to determine which tools and functions to use in a given situation and apply them to your analyses. The skills taught in this course are applicable to all types of GIS analysis.
